MEMORANDUM

To: LCCC Board of Trustees

From: Joe Schaffer, President

Date: April 15, 2015

Subject: Proposed FY16 Budget

On behalf of the faculty, staff, and students at Laramie County Community College (LCCC), it is my pleasure to present you with our proposed budget for the 2015/2016 Fiscal Year (FY16). FY16 marks the second year in our current biennium and overall it is anticipated that our budget will remain fairly consistent with FY15's overall budget picture. However, within the budget there has been, rightly so, internal reallocation and shifting of funds to meet institutional needs and priorities.

As in the past, I will share more detail on the budget process, as well as the external and internal contexts within which we have planned and developed the FY16 budget.

Budget Process

This marks the fourth time I have had the opportunity to closely witness the development of our annual budget. I continue to be impressed and grateful for the strength, inclusiveness, and transparency of our process. Our LCCC people are the bedrock of this process and we continue to use the Budget Process Advisory Committee (BPAC) to monitor and continually evaluate the budget development model, as well as the Budget Resource Allocation Committee (BRAC) of College Council to ensure broad involvement in advancing recommendations for how the College's resources are distributed. Also as in the past, and for your information, we have included a copy of the budget development flow process in the appendix of this budget book.

State Context

Mentioned previously, FY16 marks the second fiscal year in the 2015-2016 biennium. As many of you are aware, the community colleges had little impact from the 2015 general session of the Wyoming Legislature, at least in regard to its mid-biennium supplemental budget. Thus, the overall budget picture from the State context remains as we have anticipated starting the biennium. After receiving a two percent pay increase going into FY15, there is no planned, State-supported pay increase for the community colleges going into FY16. We will receive a second appropriation for the State's share of the increases to employee retirement.

For this biennium, community colleges were successful in securing \$14.3 million in Enrollment Growth funding. Although this funding is and will be helpful, we will treat Enrollment Growth funds as we have in the past as one-time-only funding because they are secured through exception budget requests and not included in the standard budget—

something we continue to try and rectify, but as we know were once again unsuccessful in this past legislative session. These Enrollment Growth funds for FY16, as was the case in FY15, will be allocated based on performance. In this case performance is considered to be the total volume of successful (passing) student class completions. LCCC continues to have the largest volume of successful course completions (20.28%), and as a result we anticipate receiving \$1,449,775 in Enrollment Growth funding for FY16.

The Wyoming Community College Commission (WCCC) continues to expand its performance funding component in the allocation model. Last biennium the amount allocated was 10% of the variable funding to the colleges. Starting in FY15, the WCCC increased the amount to 15%, and for FY16 it will be 20%. Performance in this case is defined as a mix of the volume of successful course completions and the successful course completion rates. LCCC has seen a continual improvement in its rate of successful course completions and for FY16 we anticipate receiving an additional \$364,300 in funding as a result. The faculty and academic leadership should be commended for these positive improvements.

We also continue to feel the swing of the Wyoming's economy in our local funding and the State aid portion that is derived from local valuation. The news is good and bad. The good news is that we will see an increase in funds from our local appropriations in both our general and one mill funds. The bad news is that because of fluctuations in Wyoming, we will have to absorb more than \$500,000 that will be recaptured by the State as a result of the allocation model. It is essentially a zero-sum game when the two components are compared for FY16.

Enrollment has appeared to stabilize as of the writing of this memorandum, although the College could still witness fluctuations and declines into the coming years. As a result, we are modeling decreases in tuition and fee revenues for the coming year.

Overall, when the increases to external funding are considered alongside our anticipated decreases, the College looks to be facing a deficit in funding of \$573,092, which will have to be absorbed within the operating budget. Note, because much of the revenue projections are based on enrollment, increases in enrollment in FY16 may have positive impacts on the College's budget. That said, we will move forward with prudence and base our budget on what we believe to be the most conservative of approaches to protect the institution.

Last, as many of you know, with the downward trend of many natural resource markets associated with the energy industry, the future fiscal picture for the State of Wyoming is looking less than optimistic at this point. Unless we see significant upswings in these markets over the next year, it is likely that our Legislature will be faced with difficult decisions when it convenes in January of 2016 to set a biennial budget for the State. Here at LCCC we are preparing and planning for this, and I believe that our budget for FY16 allows us to make critical investments while also protecting the future stability of the institution that will allow us to manage adverse economic impacts in the coming years.

Institutional Context

I deeply believe that institutions of higher education need to constantly look inside their organizations to identify ways to reallocate and repurpose existing funding to meet institutional needs. This becomes especially critical in years when no new external funds are available. I am proud to state, that within our FY16 budget, the College has continued our commitment to doing just that. We have looked for ways to be more efficient with our existing funds, reallocate internal funds available, and modify certain structures to generate additional revenue as needed. I will explain each in the following.

The majority of our work at the College is centered on people. And as a result, the majority of our budget is spent on people. Each year there are fluctuations in the LCCC workforce, and we examine these changes closely to make the best hires and also fully utilize resources. Similar to past years, we have examined changes in vacancies as well as replacements and have estimated that there will be nearly \$500,000 of budget available to be reallocated as a result of these changes.

FY 2015-16 Budget 3 April 15, 2015

In addition, for FY16 we have implemented a new budgeting technique (new to LCCC at least) to anticipate some savings as a result of vacancies that occur naturally over the year. Our historical approach to budgeting has been to budget for full employment. Yet we know that annually we have a certain percent of our workforce that turns over. On average it takes about 45 days for us to fill vacant positions, and as a result we do not expend all of our budget for these positions.

Rather than rectifying this balance at the end of the year, for FY16 we are budgeting up front for an estimated 1.4 percent in vacancy/replacement savings, which equates to approximately \$450,000. Our ten-year average of vacancy/replacement savings has been closer to 3 percent, so we believe our projections are conservative, and yet appropriate. We also believe this may mitigate issues with unexpended funds at the end of the biennium that have pushed us against our fund balance limits.

One other area worthy of noting change is the change to our technology fee structure. For the past three-and-a-half years, we have not raised our mandatory fees, and in fact we have actually decreased them through the elimination of one fee. While this approach has kept the escalating cost of education at bay here at LCCC, this year we realize the need to make adjustments to our technology fee structure to better align fees students pay with the services they receive.

Thus, this year we have eliminated the High Tech Fee (assessed at \$10 per credit on every credit) and the Online Course Fee (assessed at \$10 per credit on every online course credit). We have also established a Student Technology Fee to cover the costs of those technologies that directly touch students or directly support the work of employees to directly support students. This fee is assessed at \$14 per credit up to 12 credits. The other new fee is the Technology Infrastructure Fee, which goes to support the technology infrastructure required to support, and demanded by, students. This fee is set at \$9 per credit, and is also capped at 12 credits.

For FY16 then, our total anticipated new external funding will equate to \$1,449,775, with all of that being associated with Enrollment Growth funding from the State and thus it is all being treated as one-time-only funds. The funding we anticipate available through internal reallocation is \$1,640,089, which will allow for some investments in new personnel and increases in certain operating budgets.

One Mill

The other component of what I consider our operating budget includes the One Mill Fund. This is the Board's permissive one mill levy on the district that allows us to receive additional funding to support the operations of the College. Outside of our continual commitment to funding our Eastern Laramie County outreach activities and center in Pine Bluffs (estimated at \$142,538 in FY16), the bulk of the One Mill budget is flexible operating funds to meet the needs of the College.

For FY16, the One Mill budget is estimated to increase slightly, primarily as a result of increased local property valuation. Our estimated revenue is \$1,386,369. From an expenditures perspective, a significant portion of this will be utilized to fund small maintenance projects around campus, one-time-only requests from the departments and units on campus, facilities planning, professional development, and the College's Innovative Funds Program.

FY 2015-16 Budget 4 April 15, 2015

Investments

In FY16, through our diligent efforts to identify internal funds available for reallocation and investment, we will continue to invest in priorities of the institution, especially those aligned with the College's Strategic Plan and to improve our Key Performance Indicators. We will also continue to invest in commitments we have made in the past and want to continue into the future. These include things like funding pay increases to employees who advance themselves through education, adding our portion of the employer's share to the employee retirement contributions, and fully funding the new short-term disability benefit we instituted mid-way through FY15.

We again will invest in people and into new positions. The FY16 budget plans for a new investment of approximately \$345,000 in three new faculty positions, a position in student services, and a new position to help us better manage change through the strategic implementation and evaluation of projects at LCCC. This last position is one that holds great promise for strengthening our commitment to continuous quality improvement while also improving communication and awareness of major institutional change activities.

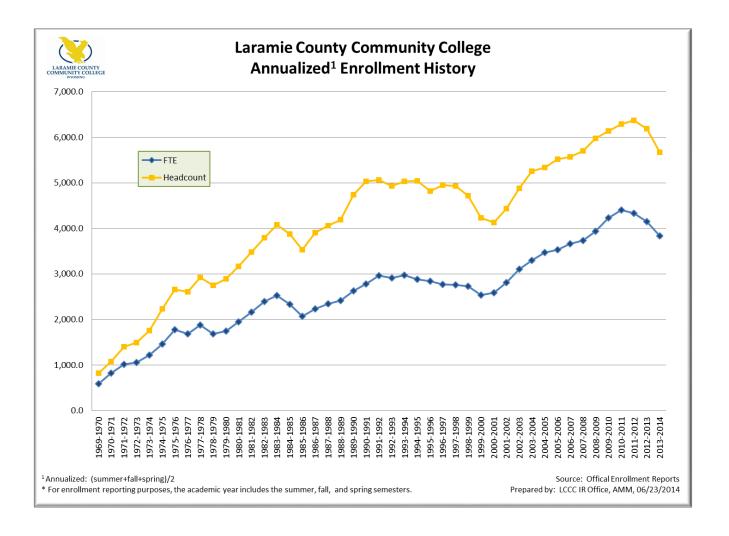

The Enrollment Growth funds will be predominately earmarked for our two major capital construction projects that will begin this summer. While we are uncertain if or how much additional funding will be needed, the College feels that setting these funds aside for potential use is the most prudent thing to do at this juncture, especially because of the volatility we have experienced in the construction market up to this point. In the event these funds are not needed for our two primary projects, there are other projects in the works to which the funds could be easily transitioned.

Overall the FY16 budget calls for a modest increase of 1.7 percent in operating expenditures, with the remainder of available funds being allocated to the areas I have denoted above.

Summation

In conclusion, I believe the proposed FY16 budget strikes the appropriate balance between fiscal conservancy and aggressive investment in areas that will help us ensure a stable future while also progressing towards the achievement of our Strategic Plan and the attainment of our mission. The FY16 budget was developed through collective and collaborative efforts across the LCCC community, and while it may not satisfy everyone's wants, it should certainly continue to move the College toward a brighter future while providing for student needs.

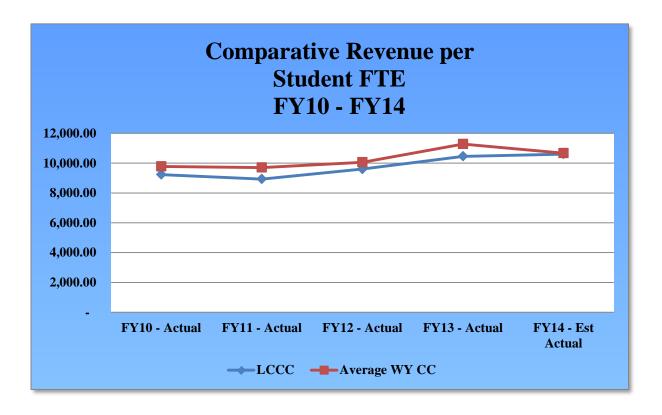

FY 2015-16 Budget 5 April 15, 2015

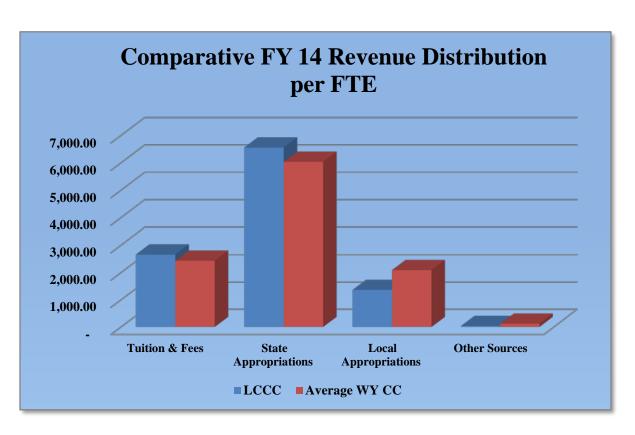

For fiscal year 2013-2014, headcount decreased 8.4% and FTE decreased 7.6%.

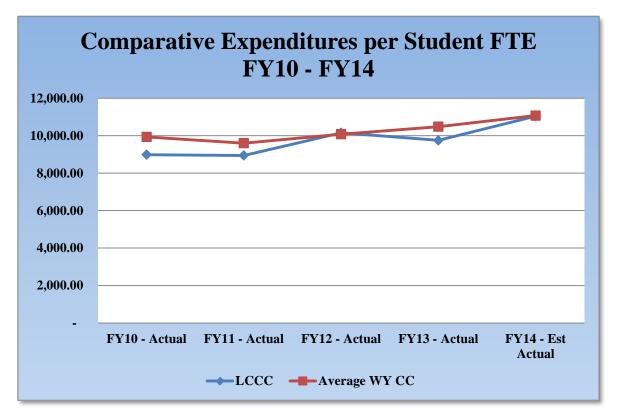

Full-time students comprise 34% and part-time students comprise 66% of the student population. The gender ratio remains similar to past years at 59% women versus 41% men.
