LARAMIE COUNTY COMMUNITY COLLEGE

Construction Update

Crews perform foundation work at the site of the new Student Services and University Center at Laramie County Community College. Photo by Ty Stockton

Work progresses on Flexible Industrial Technology and Student Services and University Center

FLEXIBLE INDUSTRIAL TECH BUILDING

- The walls are going up! Precast concrete walls are being erected now for the central pod of the Flexible Industrial Technology Building. Take a look to the east, and you'll see the new building taking shape right before your eyes. The work on the walls should be completed Sept. 22.
- FCI will begin to set steel on the north pod on Sept. 22 and on the south pod on Oct. 1.

STUDENT SERVICES/UNIVERSITY CENTER

- A pedestrian walkway has been installed on the west side of the construction site from the northwest Arena parking lot to the Blue Arches.
- Time-lapse cameras are installed. The cameras will show the progress of the buildings in still shots.
- Precast installation on the east stair tower will begin Sept. 23 and will be completed Sept. 25.
- East stair precast will be installed on Oct. 7 and 8.
- Basement steel and deck will begin Oct. 13.

PARKING

Parking will be allowed in all established parking lots, **with the exception of:**

- Residence Hall parking lots–permit only
- South-side of Auto Body
- Any grass or dirt areas
- Within any fenced area

Parking maps are available online, in Student Services, the Library and at the Cashiers' Offices.
