# **MEMORANDUM**

Date: 6 January, 2021

To: Dr. Joe Schaffer, President

From: Dr. Kari Brown-Herbst, Interim Vice President, Academic Affairs

CC: Dr. Clark Harris, Interim Associate Vice President, ACC

Dr. Kelly Humphrey, Dean, Student and Academic Services, ACC

Re: Culinary Arts Credit Diploma, ACC

As a result of our Guided Pathways initiative the College has committed to offering academic programs that are clear and intentional in design to meet students' goals in employment or further education. It is with respect for these tenets that I seek approval for a new Credit Diploma in Culinary Arts. This proposed program represents an innovative collaboration between the ACC and Albany County School District #1, specifically Laramie High School.

#### **PROGRAM OVERVIEW:**

This Culinary Arts credential presents an opportunity for the Albany County Campus of Laramie County Community College to partner with Albany County School District #1 and Laramie High School (LHS) to provide college credit and a credential to high school students enrolled in Culinary Arts courses at the high school. The 25-credit Diploma will be launched in LHS as an opportunity for successful high school students to earn national certification which will position them favorably for employment in the food service industry.

LHS will absorb all costs associated with this program. Based on enrollment trends at LHS, 20-25 students are expected to complete this credential annually. With 400 students taking Culinary Arts courses at LHS in recent years, we anticipate ongoing enrollments. Students who complete this program will be eligible to receive certifications in ServSafe Manager and Pro Start Foundations of Restaurant Management Culinary Arts Level I and II. Both certifications are recognized worldwide. ServSafe certification is required for most non-fast food establishments and when combined with Pro-Start, will ensure hourly wage increases of two to seven dollars per hour for graduates. There is currently a high demand for restaurant workers in Albany County, and food preparation jobs have a bright outlook in O-NET both nationwide and in Wyoming.

#### **PROGRAM OUTCOMES:**

The program has completed the required development and review process and has received approval of the Academic Standards Committee. The Credit Diploma is comprised of 25 credits and can be completed in two semesters.

Upon successful completion of the Credit Diploma, students will be able to:

- 1. Use industry-recognized standards to ensure safety and sanitation in food preparation.
- 2. Use standard commercial kitchen equipment to make soups, stocks, and sauces.
- 3. Use standard commercial kitchen equipment to fabricate meats.
- 4. Demonstrate fundamental baking and pastry skills.
- 5. Employ fundamental knife skills.
- 6. Explain components of restaurant management

Students will have the opportunity to meet these outcomes through the following program sequence:

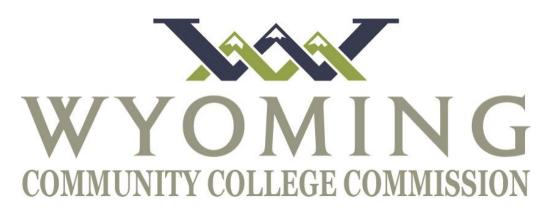

Culinary	Arts Credit Dip	loma   Program Sequence	
1st Sem	ester		
	CULA 1555	Food Preparation I: Stocks, Sauces, and Soups	3
	CULA 1600	Food Preparation II: Garde Manger	3
	CULA 2700	Food Preparation III: Baking	4
	HRM 1505	Sanitation, Health, and Safety	3
		Semester Total:	13
nd Ser	nester		
	CULA 1970	Internship	1
	CULA 1970 HRM 1515	Internship Planning & Control for Food and Beverage Operations	1 3
	HRM 1515	Planning & Control for Food and Beverage Operations	3

### **STAFFING IMPACT:**

Concurrent Enrollment faculty at Laramie High School is qualified to teach all courses in the program and has capacity for the instructional responsibilities.

### **BUDGET IMPACT:**

No new or outside funding is required to implement the Culinary Arts credential. Without the need for new equipment, facilities, a new position or increases in courses or faculty workload, we expect no budgetary expense to LCCC.

Pathway: Trades & Technical Studies

Name of Degree and Type of Credential: Credit Diploma in Culinary Arts

**Description of program:** The Credit Diploma in Culinary Arts provides a comprehensive, hands-on educational experience culminating in an internship at a local restaurant establishment where learning is applied. Gaining real world experience and building professional connections that help students gain employment after graduation emphasizes the broad range of skills these students learn throughout this two-year program. Courses meet National Association of Restaurant Management and Culinary Arts standards, and students who complete this program will be well-prepared for employment in the culinary industry and may also pursue the Associate of Applied Science in Trades and Technical Studies.
