"I want to make beauty out of trash and inspiration out of regret."
Chris Navarro

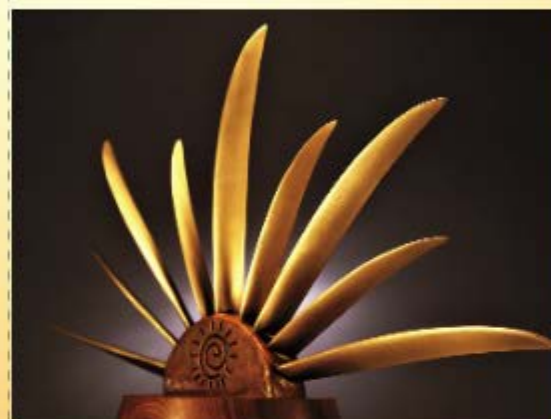

"STARBURST"

A spiraling circular designed sculpture representing the emanating rays of light as they are diverging up and outward, like that of a flash of light produced by an exploding star.

"WIND LODGE" The overall abstract design of "WIND LODGE" is inspired by the standing circular lodge poles of Native Tipis.

" TOMORROW THE SUN WILL RISE AGAIN"

Designed to symbolizing a rising sun. That will shine the light of a new day, filled with limitless possibilities and hope for the future.

WIND CATHEDRAL by Chris Navarro

HELP US BRING CASPER'S NEXT Public Art Installation TO THE Trails! Inspired by the Wyoming Wind, this 35' x 86' sculpture is constructed from spent wind turbine blades destined for a landfill's trash pile. Casper Artist, Chris Navarro is turning the blades into a beautiful, inspirational art installation on the Platte River Trail east of the Pumphouse and highly visible from 1st Street on the way to the historic Oil Derrick sculpture and the Poplar Street intersection.

If you believe in this project and would like to be a part of it, we are accepting any amount donations. We are a 501-c3 nonprofit tax-deductible organization.

We are also looking for BLADE SPONSORSHIP - \$5,000/BLADE or 2 BLADES for \$9,000 all blade sponsors will be recognized with a plaque by the sculpture. Contact Angela Emery at aemery@platterivertrails.com or 307-577-1206 to sponsor a blade.

SAVING VINTAGE WIND TURBINE BLADES by Chris Navarro

"WIND CATHEDRAL" Monumental sculpture designed and created from used wind turbine blades. The sculpture will be 35 x 86 feet and located on the Platte River Trails in Casper, WY.

I want to save obsolete wind turbine blades from the landfills and turn them into beautiful inspirational art.

-Chris Navarro
