### 4.0 DEFINITIONS

- A. *Shared Governance* – Shared governance is an organizational belief system of self-government. This system begets accompanying policies, procedures, and practices under which all major institutional constituencies contribute to, and participate in, the major decisions determining the direction and operation of the institution. Decisions that arise from a process of shared governance result in shared commitment and a cycle of institutional self-evaluation through which the College collectively directs its efforts and resources to continuous, meaningful improvement.

Shared governance at LCCC recognizes the ultimate decision-making for the College rests with the Board of Trustees. The Board entrusts day-to-day administration to the President. The President delegates this decision-making authority to individuals and campus groups possessing the expertise necessary to make sound decisions impacting the institution.
